

Conference Attendee Demographics

Law Bulletin Seminars reaches all licensed Illinois attorneys through highly-targeted invitations to our conferences. We provide our underwriters unparalleled exposure to their business development prospects through numerous media channels and unique networking environments.

We hosted eight Minimum Continuing Legal Education conferences in 2008. Attendance averaged 190 per conference, with a range of 130 to 360. We surveyed all attendees, and we have a detailed demographic breakdown for each conference. We track type of organization, years in practice, practice area, and more.

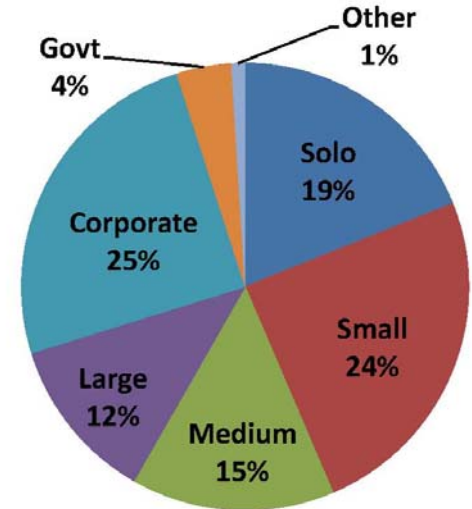

The pie chart represents the combined attendee demographics for all of our 2008 conferences. Law firms comprised the largest percentage of attendees at 70%. Attorneys from corporate law departments, government agencies, public interest organizations, and other entities comprised the remaining 30%.

To view some of the organizations that have been represented at Law Bulletin Seminars conferences, scroll down or click on these links:
